

# SUPERVISORY COMMITTEE CERTIFICATION PROGRAM

In partnership with ...

A course designed  
to help you navigate  
your role as a supervisory  
committee member.

# PROGRAM

The Supervisory Committee course is designed to help the busy volunteer go from no experience, in the credit union space, to a capable and fully contributing member of a Supervisory Committee. We accomplish this by not only reviewing concepts, but also by delving into the month-to-month inner workings of a Supervisory Committee. By utilizing my real-life examples as a consultant and examiner, you'll receive job aides that you can utilize and implement immediately. We also offer more advanced topics for experienced Supervisory Committee Members looking to sharpen their skills and delve deeper into more complicated topics. This course is for the novice and the experienced.

Cover your entire organization when you bundle this course with our Credit Union Board Certification Program.

*There's a significant gap in the credit union space: proactive education supported by a pragmatic curriculum. We're excited to partner with a progressive company such as Sunergy that makes credit union volunteers a priority. We are confident this new program will align with the credit union's desire to enhance their volunteers' level of engagement.*
